## Breeding Shed Requirements

**All Mares** must have proper I.D. either on halter or neckstrap.

**All Maiden and Barren Mares** must present a negative uterine culture taken within 48 hours to 30 days of the first cover.

No culture required for **Foaling Mares** until the third cycle, or if the foal died within 72 hours of foaling.

**All Mares** must present a new negative uterine culture for the third cycle and any subsequent cycles.

**All Mares** must show proof of vaccination for EHV-1 from 7 - 90 days prior to breeding.

**No mare** will be bred without a signed breeding contract on file in our office.

**All Maiden Mares** must be jumped prior to coming to the breeding shed. Keane Stud reserves the right to turn away any mare that is a risk for injury to the stallion and/or personnel.

We request that **no foals** accompany the mares to the breeding shed. If unavoidable, an attendant must be provided to remain on the van/trailer with the foal. The van/vehicle will be required to move to a remote site on the farm during breeding.

**Permission to Tranquilize:** Please initial below, indicating your permission to tranquilize, should it become necessary to breed your mare.
